FREE WOOL!

Waite Will Call a Convention to Protest.

Stint on Becoming Appalling in City of Chicago.

Brazos's Silver Coinage Scheme Proclaimed Impracticable.

BRAZILIAN AFFAIRS.

Gover. Dec. 8.—Governor Waite received a petition this morning asking him to call an interstate wool-growers convention to be made up principally of New Mexico and Colorado growers. The purpose to protest against free woolship proposed by the Wilson bill. It is probable Governor will call the convention.

Financial Wrecks.
New York, Dec. 8.—The Herald of this morning prints an interview with the agent Brazilians Admiral Melo, who says he will not assist the present government, and that he will not restore aarchy, but set up another republican government. When he lands at Rio, the government soldiers will all be his forces. Recent events indicate truth of these statements.

Green Want.
Chicago, Dec. 8.—The mystery and suspense at present leads all records, morning 1,500 men, many hundreds more, were let out of the city hall and police stations, where they had shelter. The question what to do the worthless waste of a grave problem. Since the close of the fair the amount in Chicago has increased to an extent.

Storms off Great Britain.
London, Dec. 8.—A severe storm has raged on the western coast of Great Britain. A vessel was in distress off the coast of Wales, and before help could get to it, disappeared, and it is feared sent down with it.

A steamer Enterprise was wrecked trying to enter the harbor. The ship was.

Hoke and Dan are Out.
Washington, Dec. 8.—A bitter feeling has been engendered between Senator Hoke and Secretary Hoke Smith on account of the latter's action on the pensioner. Hoke Smith's paper calls him a cheap demagogue and scoundrel. If the president sides with him, Smith will probably resign the chairmanship.

Wild Scheme.
Washington, Dec. 8.—Governor Waite's plan for state silver coinage is drawing attention here. The treasury department officials say the plan is practicable at all. The Post devoted a column editorial to the Silver commission. The plan of state mints is looked upon with great favor as opposed to national government.

The Assassin Speaks.
Chicago, Dec. 8.—Prendergast, the assessor of Mayor Harrison, spoke a set again this morning, creating the alarm in the minds of the lawyers for late that Prendergast's interruptions were unchecked by counsel for defense part of a pre-arranged plan to mislead.

General Strike Ordered.
Moines, Ia., Dec. 8.—Ten thousand are employed in eleven coal mines of district held a mass meeting and unanimously decided to order a general strike until the operators revoke their demands within two weeks' pay instead of one. The miners will demand pay two weeks instead of one month.

Symes' Estate.
New York, Dec. 8.—Sophie E. Symes, administratrix of the estate of her husband, Dr. G. Symes, has filed an inventory in the county court. It is estimated that the deceased left property in Alveo county valued at \$583,500, reduced to the amount of \$145,000.

Brakeman killed.
Baldwin, Colo., Dec. 8.—Len. Bidwell, a Denver & Rio Grande freight man, while switching in the yards last night, missed his footing and under the train and was instantly killed. He was 35 years of age, and unmarried.

Proceedings of Congress.
Washington, Dec. 8.—Today was the first day in the house. The committee on foreign and currency reported a bill providing that the tax upon certain issues of notes be suspended. The bill was called up for admission of the bill and the point was that there was no

EDITORIAL NOTES.

Dolores players are receiving considerable attention from gold seekers, these days.

The corner stone of the Catholic church was laid at Eddy, with appropriate ceremonies.

Deputy Collector Seaman Field and Mounted Inspector Haslett assumed charge of the local custom house at Deming.

A. J. Barka, a ranchman living about twenty miles above Rincon along the Rio Grande, died suddenly in Deming of pneumonia.

A car load of young fruit trees arrived in Eddy from the Carpenter nursery, in Nebraska, having been on the road but eight days.

The board of governors of the Eddy club met, and re-elected Chas B. Eddy president. T. E. Blackmore was re-elected secretary.

The Socorro Fire Clay works are again in operation. A kiln fire brick has just been burned that are pronounced of a very superior quality.

Old man Guy, who is now engine inspector at the Las Vegas shops, was at one time an engineer on the New York Central and Central railway of New Jersey.

The latest rumor about Chief Justice Smith is that, upon his return to Virginia, he will wed a lady to whom he has been betrothed for a number of years. His escape from death seems almost miraculous. Such cases are very rare.

The Tombstone Prospector says our merchants are anticipating a good business with Sonora again after the ten dollar duty on cattle is reduced to an ad valorem duty of twenty per cent. Before the McKinley bill went into effect our trade with Sonora cattlemen was a big source of revenue.

The Prescott Courier has the following item: George Porter came to yesterday from the Henrietta, and reports the mill completed, with the exception of two veneer belts, which are expected to arrive in a day or two. The twenty stamps will start dropping on Henrietta ore within the next ten days.

There are fully 540,000 acres of land tributary to Mesa City which is unoccupied in fertility, yet subject to entry by actual settlers. The water problem is the only thing now to be settled in order to transform this vast area into beautiful and profitable farms. The water problem will be settled ere long.

Should the Bill Williams Fork water storage enterprise be carried out as projected, it will open up one of the richest sections, both as to agriculture and mineral in Arizona. The storage dam will form a lake two miles wide and seven miles long. The waters thus impounded

should be available for irrigation.

The New York Engineering News declares that the storage battery is still a possible competitor of the trolley in electric street railways, despite the disastrous failure of recent commercial experiments.
